

DESIGN OF DOCTORAL DISSERTATION				In total
Elective subjects (related to the topic doctoral dissertations)	Research work in laboratories (work on doctoral dissertation)	Writing research labor (works)	Writing dissertation	
20	30	20	30	100

The preparation of the doctoral dissertation begins with the application of the research project after the third semester and ends with the defense. Requirements for defense: a) passed exams from compulsory and elective subjects, b) fulfilled obligations stipulated by the program, v) publication or certificate of acceptance of at least one paper in the category of international scientific journals, in the field closely related to the doctoral dissertation, in which the candidate is the first or the other author, provided that the mentor is the first author. Total ESPB points related to doctoral dissertation writing: 20 (elective subjects related to the dissertation) + 30 (research laboratory work) + 50 (writing research work and defending doctoral dissertation) = 100
