

Study program: Physical Education and Sport
Type and level of studies: Basic academic studies
Course title: SOCIOLOGY WITH SOCIOLOGY OF SPORT
Lecturer or lecturers (for lectures): Sandra S. Radenović
Lecturer / Associate (for practice):
Course status: Obligatory
ECTS: 4
Condition: None
Course objectives: Acquiring knowledge about the subject of sociology as a general social science and the subject of sociology of sport as a special sociological discipline. One of the goals of Sociology with sociology of sport is a critical thinking about the complex relationship between society and sport in contemporary world. Through analysis of basic sociological concepts and concepts of sociology of sport, future teachers of physical education will be able to acquire relevant knowledge, but also orientation in critically considering the phenomenon of sport and its importance in contemporary society.
Course outcome: Knowledge acquired within the course allows future teachers of physical education to recognize the sociological aspects, as well as the aspects of sociology of sport regarding relationship between society and sport. It prepares students of basic academic studies for successful dealing with sociological issues and issues of sociology of sport, both during the studies and in the scientific-research work in a future profession.
