CRITERIA FOR DETERMINING THE RANKING ORDER OF CANDIDATES

The ranking order of candidates for enrollment in doctoral studies is determined on the basis of an overall average grade and the length of study in Undergraduate Academic Studies and Master Academic Studies, achieved scientific results and other terms and conditions prescribed hereby.

The overall average grade of study (OAG) is calculated on the basis of the average grades of study awarded in Undergraduate Academic Studies (GrUS) and Master Academic Studies (GrMS), weighted by the duration of the study program in Undergraduate Academic Studies and Master Academic Studies expressed in ECTS credits (UScredit and MScredit):

$$\text{Overall average grade (OAG)} = \frac{\text{GrUS} \times \text{UScredit} + \text{GrMS} \times \text{MScredit}}{\text{UScredit} + \text{MScredit}}$$

For candidates who have completed Integrated Studies, the average grade awarded in these studies, length of study, achieved scientific results and other terms and conditions prescribed hereby are taken into account.

For candidates who have acquired a higher education degree according to the regulations applicable until the entry into force of the Law on High Education (“Official Gazette of the RoS,” no. 76/05, 100/07 – authentic interpretation,

97/08, 44/10, 93/12, 89/13, 99/14, 45/1 - authentic interpretation, 68/15 and 87/16), the average grade awarded in Undergraduate Studies which includes a graduation paper, if applicable, is assessed.

The length of study is assessed as follows:

| The length of study in undergraduate and master academic studies or in integrated studies | Number of points |
|--|-------------------------|
| up to 5 years | 10 |
| from 5 to 5.5 years | 8.75 |
| from 5.5 to 6 years | 7.5 |
| from 6 to 6.5 years | 6.25 |
| from 6.5 to 7 years | 5 |
| from 7 to 7.5 years | 3.75 |
| from 7.5 to 8 years | 2.5 |
| from 8 to 8.5 years | 1.25 |
| more than 8.5 | 0 |

| The length of study of candidates who have completed four-year studies according to the regulations applicable until the entry into force of the Law on Higher Education (“Official Gazette of the RoS,” no. 76/05) | Number of points |
|--|-------------------------|
| up to 4 years | 10 |
| from 4 to 4.5 years | 8.75 |
| from 4.5 to 5 years | 7.5 |
| from 5 to 5.5 years | 6.25 |
| from 5.5 to 6 years | 5 |
| from 6 to 6.5 years | 3.75 |
| from 6.5 to 7 years | 2.5 |
| from 7 to 7.5 years | 1.25 |
| more than 7.5 | 0 |

When determining the length of study, the length of studies in all study programs completed/attended by candidates from the enrolment until the completion of Undergraduate and Master Academic Studies or Integrated Studies i.e., four-year studies, according to the regulations applicable until the entry into force of the Law on Higher Education (“Official Gazette of the RoS,” no. 76/05) is taken into account.

In addition to the overall average grade and the length of study, the ranking order of candidates for enrollment in Doctoral Academic Studies is determined on the basis of the following criteria:

- 1) published scientific papers. (The types and manner of assessing scientific and research results are defined by [the Rulebook on the manner and procedure of assessment and quantitative display of a researcher’s scientific and research results](#). Candidates in this category may be awarded **20 points** maximum). Two published scientific papers that represent the mandatory requirement for the application for the call in case of candidates with an average grade lower than 8, but higher than 7, are not taken into account for assessment.

- 2) achieved coaching or sports results (category 1 = **6** points, category 2 = **3** points. The categorization of coaching or sports results is defined by [the Rulebook on the national categorization of elite athletes](#)).
- 3) professional educational work at the faculty (demonstrator for up to 2 years = **1.5** points, demonstrator for more than 2 years = **3** points, associate for 1 year = **3** points, associate for 2 years = **5** points).
- 4) graduation paper and master thesis in accredited department projects (graduation paper = **2** points; master thesis = **2** points).
- 5) participation in professional and scientific projects funded by various Ministries (1 point for each project. Candidates in this category may be awarded **2 points** maximum).

A total number of points for each candidate is determined by the overall average grade i.e., average grade **multiplied by 5** and summed up with the points awarded on the basis of: length of study, published scientific papers, achieved coaching or sports results, professional educational work at the faculty, graduation paper and master thesis in accredited department projects and participation in professional and scientific projects funded by various Ministries.

DEADLINES AND HOW TO LODGE A COMPLAINT

The Faculty publishes a list of applicants, including information about the points awarded on the basis of a candidate's success achieved at the previous level of studies, on the notice board and on the website <http://www.fsvf.bg.ac.rs/> against which candidates may lodge complaints in case of technical errors within a time limit determined by the Faculty. Upon expiry of this time period, data implying the success achieved at the previous levels of studies are considered final.

After this period, the Faculty publishes a preliminary ranking list for each individual study program on the notice board and on the website of the Faculty, within the time period determined by the call.

A candidate may file a complaint regarding the regularity of the procedure determined by the call, in respect of his/her position in the ranking list, within 36 hours from the publication of the preliminary ranking list at the Faculty.

The complaint is submitted to the competent committee of the Faculty, which shall adopt a decision upon the complaint within 24 hours from the receipt of the complaint.

The candidate has the right to lodge a complaint to the Dean of the Faculty, in a second-instance proceeding, within 24 hours from the expiry of the period specified for the adoption of the decision upon the candidate's complaint by the commission of the Faculty.

The Dean of the Faculty adopts a final decision within 24 hours from the receipt of the complaint and submits the decision to the candidate and the commission of the Faculty.

Upon deciding on the complaint, the Faculty determines and publishes the final ranking list of all candidates including the total number of points awarded according to all criteria **for each study program** and submits it to the University.

[A contract regulating mutual rights and obligations](#) is concluded with a student who enrolls in doctoral studies.

RULES REGARDING THE APPLICATION FOR THE CALL AND THE MANNER OF ENROLLMENT IN THE STUDY PROGRAM

During the application, candidates are applying **at the same time** for both the studies in Serbian and the studies in English. The order of candidates is determined on the basis of a **ranking list**.

During the enrollment, candidates opt for the studies (in Serbian/English) in which they wish to be enrolled, according to their position in the final ranking list and by a roll call of candidates at the times and according to the schedule that will be subsequently published on the Faculty's website. A candidate who is not present at the roll call, at the time scheduled for him/her, loses the rights acquired through his/her ranking position in the ranking list (priority to choose to be enrolled in the specific studies) and the next candidate according to the determined order in the final ranking list will be enrolled instead. Candidates who are late for the roll call will be assigned the time for enrollment in the remaining vacant positions until the total enrollment quota is filled for both types of studies.

If the vacancies are occupied in one of the two types of studies (10), the remaining number of candidates who have acquired the right to enrollment will be able to enroll in the studies in which vacant positions are available until the total quota approved (20) is filled in both types of the studies.

In the following years of studies:
