

GLOBAL EMERGING LEADERS COMMUNITY

_____ No. _____

To the head people of University

Dear friends!

Your University is rightfully considered one of the most well-known in our country, which employees have proven themselves as competent specialists and talented executives.

International public movement "Committee 2017" involving the International Fund for Cooperation and Partnership of the Black Sea and the Caspian Sea implements a project "GLOBAL EMERGING LEADERS COMMUNITY" (GEL), which objective is to create an organization, which will unite the most talented and spiritual youth from more than 50 countries. Those young people, who, due to the reasonable self-advancement, personal qualities, and achievements, have all chances to take leading positions at the enterprises and corporations, well-known organizations and institutions, structures of governance in their countries in 5 to 10 years.

Besides leadership skills and personal achievements, the main criterion of the young leader selection is his/her advanced spiritual capabilities, loyalty to the ideals of goodness and justice, and formed scale of life values, as well as acquired moral qualities.

Co-founders of the GEL project headed by Sangeeth Varghese (India)* elected Asian leader recognized at the International Forum in Davos as the most promising young leader of the world, were able to combine the most advanced techniques that allow young leaders to disclose the abilities to manage their vital resources, as well as help identify other hidden abilities and talents.

With a conscientious and responsible approach to the implementation of the project, we have a historic opportunity to influence the future of the world, without any exaggeration of the project mission. If we will hold a qualitative selection of the nominees and will teach the best of the best the advanced techniques, who in turn will pass knowledge and skills to the rest of the community in their own countries, we will get a unique peacekeeping army of energetic, talented, spiritually advanced people in the nearest future. Those who are able to lead the others and give them the knowledge gained.

GLOBAL EMERGING LEADERS COMMUNITY

Within the GEL project, we plan to reward with honorary distinction not only the best representatives of the youth (20-40 years), **but also educational institutions, organizations, enterprises, and agencies succeeding in the education of the most promising young leaders.** As in other countries, the selection of the top 100 leaders in Russia will be made on the basis of information on graduates and young students in the field of science, culture, and sports, economy, politics and all other fields who have made real progress in their work and have required spiritual and moral qualities.

We believe the representatives of your University will occupy a rightful place among the GEL nominees. Their positioning in the organization “GLOBAL EMERGING LEADERS COMMUNITY” will be widely covered **in the 50 countries, where the first phase of this global project is implemented.**

I ask you to appoint a person in charge from amongst the employees of your University for cooperation in the framework of the “GLOBAL EMERGING LEADERS COMMUNITY” project and the selection of nominees from amongst your employees.

For a more detailed presentation of the project and possible options for cooperation, I propose to have a brief meeting at a convenient time for you in the next few days.

A brief presentation of the project is enclosed.

Sincerely yours

Authorized representative of GEL)

Assistant on GEL PROJECT for Serbia – Ana Djordjevic, contact (064 – 28-27-247), email : ancistar@gmail.com
